## DESCRIPTION

Very bright: 320 lumens; the light is strong but not dazzling thanks to the special diffuser; "tube" effect with soft light for the eyes; very low consumption: 4.5W. Lightweight: only 500 grams; the use of new lithium batteries makes the product much lighter than older lead-acid batteries. Safe: With an external transformer; the external transformer allows for completely cordless use of the lamp; in fact, all emergency lamps from other brands have a dangling cord, posing a serious tripping hazard while using the lamp; think about it. Modern design: The lamp becomes a design element in your home. Two light modes: strong and medium. Battery life: up to 5 hours of light (50% light, 2 hours at 100% light); 2Ah Li-Ion battery; 6000K cold light; dimensions: 28.6cm high, 16.4cm long, 10.4cm wide.
