DESCRIPTION

With a lifespan of 20,000 hours (well beyond the standards you will find on the market), the bulb can last over 15 years (with 3 hours of daily use). Produces 470 lumens of instant brightness, without having to wait for the bulb to warm up. A 38° directional lens provides a focused beam angle. With a color temperature of 4000 Kelvin, the bulb provides natural white light, creating a bright atmosphere in any room. Perfect for any room in the home, such as the bedroom, living room, bathroom, and office. Ideal for replacing 40W halogen bulbs in desk lamps, wall lamps, and decorative spotlights. It consumes 6 watts of energy and costs less than 3 euros a year to operate, offering significant energy savings compared to an incandescent light bulb. It's equivalent to a 40W halogen bulb. The high color rendering index (CRI > 80) offers natural, vivid colors. This bulb is not dimmable and not compatible with dimmer switches.
