DESCRIPTION

With a lifespan of 20,000 hours (well beyond the standards you will find on the market), the bulb can last over 15 years (with 3 hours of daily use). It produces 2300 lumens of instant brightness, without having to wait for the bulb to warm up. The opalized diffuser makes the light uniform, glare-free, and well-diffused (180° beam angle). With a color temperature of 6500 Kelvin, the bulb provides cool white light, creating a bright and functional atmosphere in any room. Perfect for any room in the home, such as the bedroom, living room, bathroom, and office. It consumes 20 watts of energy and costs less than 4 euros a year to operate, offering significant energy savings compared to an incandescent light bulb. It's equivalent to a traditional 140W light bulb. The high color rendering index (CRI > 80) offers natural, vivid colors. This bulb is not dimmable and not compatible with dimmer switches.
