## DESCRIPTION

With a useful life of 20,000 hours (well beyond the standards you will find on the market), the bulb can last over 15 years (with daily use of 3 hours). It produces 470 lumens of instant brightness, with no need to wait for the bulb to warm up. Opalized diffuser that makes the light very homogeneous and not dazzling. The effect is very similar to old incandescent bulbs. The "LED filament" technology gives a hyper diffused 330 ° beam. With a color temperature of 4000 Kelvin, the bulb provides natural white light, creating a bright atmosphere in any room. Perfect for all rooms of the house such as bedroom, living room, bathroom ... and for the office. It consumes 4 watts of energy and costs less than 2.50 euros to run. year and allows significant energy savings compared to an incandescent light bulb. Equivalent to a traditional 40W bulb. The high color rendering index (CRI> 80) offers a natural and vivid color. This bulb is not dimmable, not compatible with dimmers.
