## TECHNICAL DATA

Power supply	220V AC
Power supply provided	YES
Type of power supply provided	POWER CABLE
Lighting source	UV FLUO
Electricity consumption (W)	12
Lamp included	(INCLUDED)
Power cord length (cm)	100
Switch	YES
Plug	Type E / F - 2 pin (EU Hybrid)
Grid tension	2200V/2500V
Protected area (m <sup>2</sup> )	30
Insulation class	I
Country of origin	CHINA
Material	PLASTIC + ALUMINIUM
Warranty	2 YEARS
Width (mm)	263
Depth (mm)	66
Height (mm)	263
Net weight (Kg)	1.157

## DESCRIPTION

Super Effective: Our electric mosquito killer is designed with a high-intensity ultraviolet bulb that attracts all pesky flying insects into the device; it kills them instantly when they come into contact with the powerful, high-voltage metal grids; effective for an area up to 30 square meters. No chemicals or odors; our electric mosquito killer uses no chemicals whatsoever; it also produces no smoke, no odor, no spray; it is completely free of toxic substances and produces no pollution whatsoever; it is also completely harmless to humans and pets; also perfect for shops, rooms, etc. Easy to use and clean; our electric mosquito killer is easy to place on any flat or hanging surface; however, we recommend hanging it 6 feet high in the area where pesky insects are flying. Simply place the electric mosquito killer in a dry place and plug it in. Dead insects are collected in the bottom tray, which can be easily removed for disposal and cleaning. Safe and durable - our electric mosquito killer is made of ultra-resistant aluminum and ABS plastic; it has been designed to avoid any contact with metal grates; the energy-saving uv tubes are highly efficient (2x6W) and can be replaced if necessary. Quality and service: Velamp is an Italian company that has been operating on the Italian market since 1906; we are here for you.
