TECHNICAL DATA

Power supply	220V AC
Power supply provided	YES
Type of power supply provided	POWER CABLE
Lighting source	UV FLUO
Electricity consumption (W)	20
Lamp included	(INCLUDED)
Power cord length (cm)	100
Switch	YES
Plug	Type E / F - 2 pin (EU Hybrid)
Grid tension	2200V/2500V
Protected area (m ²)	80
Insulation class	I
Country of origin	CHINA
Material	PLASTIC + ALUMINIUM
Warranty	2 YEARS
Width (mm)	430
Depth (mm)	75
Height (mm)	260
Net weight (Kg)	1.588

DESCRIPTION

Super Effective: Our electric mosquito killer is designed with a high-intensity ultraviolet bulb that attracts all the annoying flying insects into the device; it kills them instantly when they come into contact with the powerful high-voltage metal grids; effective for an area up to 80 m². No chemicals or odors; our electric mosquito net does not use any chemicals; it also produces no smoke, no odor, no spray; it is completely free of toxic substances and does not produce any form of pollution; it is also absolutely harmless to the human body and pets; perfect for the nursery or bedroom. Easy to use and clean; our electric mosquito killer is easy to place on any flat surface or hang; however, we recommend hanging it 1.8m high in the area where the pesky insects are flying; simply place the electric mosquito killer in a dry place and plug it into the socket; dead insects are collected in the bottom tray, which can be easily removed for disposal and cleaning. Safe and durable - our electric mosquito killer is designed with ultra-resistant aluminum and ABS plastic; it has been designed to avoid any contact with metal grilles; the energy-saving UV tubes are very efficient (2x10W) and can be replaced if necessary. Quality and service: Velamp is an Italian company that has been operating on the Italian market since 1906; we are here
