DESCRIPTION

4 AAA alkaline batteries, 1.5 volts, ideal for a variety of devices, including game controllers, toys, flashlights, digital cameras and watches. 5-year lifespan, leak-free energy storage; the air- and liquid-tight seal conserves energy until needed, thanks to an improved design that includes a double crimp, a new zinc composition, and anti-corrosion components. Provides the right amount of power for a specific device; ideal for game controllers, toys, flashlights, digital cameras, watches, and more. Note: These batteries are NOT rechargeable. For reusable options, check out ENERGIZER rechargeable batteries.
