**DESCRIPTION**

**EASY INSTALLATION:** The solar stakes can be planted in the ground or mounted on the wall. The panel connects to the spotlights via two 3-meter cables. **SOLAR CHARGING:** Big savings! The batteries charge during the day with sunlight and then automatically turn on the spotlights in the evening. **RECHARGEABLE:** Equipped with a 2000mAh lithium battery (much larger than many other models) it will give you up to 8 hours of light (in 50% mode). **POWERFUL LIGHT:** The spotlights feature particularly powerful, latest-generation SMD LEDs (100 lumens per spotlight). The light is focused: it provides precise illumination for a tree, a bush, a vase, an entrance, etc. **DURABLE:** Sturdy ABS construction with effective heat dissipation. Protection against shock and corrosion. **IP65 protection rating:** This kit can operate outdoors for long periods despite the weather: it is waterproof.
