DESCRIPTION

SOLAR FLAME EFFECT LIGHTS 2 PACK: These flame effect solar lights are a safe alternative to real torches and candles. Don't risk burning yourself! You will provide a warm atmosphere for your garden, party, barbecue and camping. Height: 59 cm, flame diameter: 9.5 cm. **SOLAR LIGHT:** This flame effect lamp recharges during the day with solar energy and automatically lights up at night. The battery contained in the lamp is powered by solar energy. It is recommended to install it in particularly sunny areas in order to recharge the batteries to their maximum capacity and enjoy a unique spectacle at night! **Long Lasting:** The built-in rechargeable Ni-Mh battery is high capacity (200mAh) and allows the light to illuminate up to to 5 hours in summer (after fully charged). **Charging time:** 6-8 hours per sunny day. **Easy installation:** no wiring required. It is possible to install the solar lights on the lawn, in the wings, the paths, but also vases, terraces... everywhere. The IP44 waterproof solar torch with dancing flame has been designed to withstand all atmospheric conditions. **Ecological:** avoid the use of electricity from non-renewable and polluting sources.
