## DESCRIPTION

For Everyday Use. Unlike other models on the market, this flashlight is 2 in 1: 1) It is a true 3W LED flashlight with white light. It will allow you to see both near and far with the built-in ZOOM function. 2) It is also a UV flashlight: it emits a 395nm UV (ultraviolet) wave, easily detecting pet urine stains on carpet or clothing, such as cat or mouse stains; and invisible food stains on the floor or table. It can also be used to identify leaks in air conditioning systems. Multifunctional: It can detect animal urine and money, jewelry, fake collectibles, and check driver's licenses, official ID cards, and passports. It checks banknotes, fingerprints, and fluorescent prints. For professionals, it's ideal for inspecting air conditioning systems for leaks... but it's also a standard 3W LED flashlight with white light. 2 products in 1! Durable Aluminum Alloy Material: This UV lamp is made of aluminum alloy, diameter 3cm, length 12cm, lightweight of only 62 grams, it is easy to carry everywhere: in the car, in the toolbox, in the bag.... IPX7 Waterproof: With IPX7 waterproof rating, the aluminum alloy UV light is sturdy and abrasion-resistant, suitable for outdoor use or in the rain. It is resistant to impact and rust. The flashlight works with 3 LR03 (AAA) batteries, not included.
