## DESCRIPTION

3 Light Modes: 100% brightness (300 lumens, 3-hour runtime), 50% brightness (150 lumens, 7-hour runtime), 15% brightness (14-hour runtime). Controls can be made via the convenient rubber switch, the convenient dimmer knob (also operable while wearing work gloves), or the hands-free sensor that allows you to turn the headlamp on and off without touching it. Ultra-bright: Equipped with a latest-generation 3W COB LED with 300 lumens. The wide beam (110°) allows you to work closely on surfaces without glare. It illuminates up to 10 meters. The elastic band is non-slip for easy installation on a construction helmet, without ever falling off. Hands-Free Control: You can activate the hands-free switch so you can turn the lamp on and off simply by waving your hand in front of the LED. Convenient when wearing gloves or when your hands are full. IP67 Waterproof: Protected from splashes of water. The light still functions normally when it rains. Ideal for all outdoor activities such as running, camping, cycling, night fishing, car repairs, and more. It's also adjustable so you can direct the beam as needed. Made of polycarbonate with rubber reinforcements: IK07. Rechargeable: Built-in 1400mAh lithium battery. Recharges via the included USB cable, no need to buy batteries. Battery life of over 14 hours.
