DESCRIPTION

POWERFUL AND VERSATILE: 3 white light modes: 500 lumens, 100 lumens, and TURBO 1500 lumens (for just 40 seconds). 2 UV light modes: full power, 50% power. Controls are made via the convenient rubber switch. **ULTRA BRIGHT:** Equipped with the latest generation LEDs (high power 15W 6000K for a whopping 1500 lumens). Thanks to its patented optics, the white light illuminates up to 150 meters. The light is focused at 30 degrees. The elastic headband is easily adjustable: perfect for those who need comfortable lighting. The headband is also coated with silicone on the inside to prevent slipping when installed on a helmet. **UV LIGHT:** Equipped with 365nm UV light. Ideal for night vision and detecting liquid and gas leaks in air conditioning systems, cars, etc. Detects and identifies dirt residue, pet urine, etc. Checks and verifies banknotes, fingerprints, and fluorescent lights. **IPX7 WATERPROOF:** Protected from strong jets of water and heavy rainfall, it's even submersible. Even when it rains, the light still works! Ideal for all outdoor activities like running, camping, cycling, night fishing, car repairs, and more. It's also adjustable so you can direct the beam as needed. **RECHARGEABLE:** The headlamp is equipped with a replaceable 2200 mAh lithium battery. It charges via the included USB cable, so there's no need to buy batteries. Over 10 hours of battery life in 100 lumen mode. AC/DC charger not included.
