## DESCRIPTION

Super durable with ABS plastic and a rubberized surface. Highly hard, it can be used in the workshop, in the toolbox, but also in the car, while camping... Size: Length 27.3X 6.3X 4.5 CM, very suitable for adult men's hand, better than other cheaper competitive products which are too short and thin. It uses the latest SMD LED technology as its light source: low energy consumption but 350 lumens for the panel and 100 lumens for the flashlight. It can easily illuminate a 50m2 space! Equipped with two hooks for horizontal suspension and two super-strong magnets on the back and bottom. It can be attached to any vertical steel surface without slipping. It comes with a home charger and a 1-meter USB cable. The Mirco USB charging port is protected by a rubber rain cover: it can be used easily and safely for heavy duty and outdoor work.
