DESCRIPTION

The STAK LED work light is a powerful work light that, thanks to its wide 120° beam angle, can illuminate a large area. The 200-lumen LED work light has five different operating modes: 100% white light, 40% white light, 10% white light, red light, and flashing red light. Rechargeable: The lamp features a rechargeable 3.7V 450mAh lithium polymer battery; it comes with a 50cm USB charging cable. Battery life: up to 12 hours; fully charged in 3.5 hours. Magnet: The base of the lamp has a strong magnet: it allows you to attach it to metal surfaces, leaving your hands free for other tasks. Clip: The lamp has a clip that allows you to hang the lamp easily. Sturdy (aluminum body) and convenient to use: the rechargeable workshop lamp with built-in battery is ideal for illuminating the tightest spots, thanks to its slim and handy design. Perfect for home, work, camping, in emergencies, in the car, in the garage, and on the job (electricians, mechanics, plumbers, etc.).
