

PACKING 	INNER  pcs	MASTER  pcs
Colour box	6	48

TECHNICAL DATA

Name	THERM500
Power supply	220V AC
Switch	YES
Absorption (A)	7
Insulation class	II
Color	WHITE
Country of origin	CHINA
Material	PLASTIC - OTHER
Warranty	2 YEARS
Width (mm)	73
Depth (mm)	23
Height (mm)	73
Net weight (Kg)	0.089

DESCRIPTION

A room thermostat lets you control the temperature in your home, a comfort you can't live without. With the Velamp manual thermostat, you can do so very easily, setting the desired temperature with a range of +5°C to +30°C. It also guarantees energy savings. Operation: The room thermostat works closely with your boiler. You can be sure your home will always be warm thanks to the antifreeze function. The two indicator lights indicate 1) proper power supply to the thermostat (red LED) and 2) boiler operation (green LED). Easy installation: Velamp offers its expertise to even the most inexperienced users: this thermostat is simple to install, requiring only two wires to plug into the wall. Ideal for regulating the temperature of homes, shops, and offices. Features: The thermostat measures 75x75x31mm. Made of shockproof ABS plastic. The contact rating is 7 (3) A/250V. Compatible with most heating systems: electric, gas, diesel, etc. The Velamp thermostat manages both heating and cooling: you can obviously connect a boiler but also an air conditioning system.
