

Compatibile con la maggior parte dei sistemi di riscaldamento e condizionamento
Compatible with most heating and air conditioning systems

PACKING	INNER	MASTER
/	pcs	pcs
Colour box	6	48

TECHNICAL DATA

Name	THERM506
Power supply	DRY BATTERIES
Power supply provided	NO
How many batteries are used	2
Battery type	AA
Batteries provided	(NOT INCLUDED)
Switch	YES
Absorption (A)	6
Timer	YES
Insulation class	III
Color	WHITE
Country of origin	CHINA
Material	PLASTIC - OTHER
Warranty	2 YEARS
Width (mm)	85
Depth (mm)	30
Height (mm)	140
Net weight (Kg)	0.154

DESCRIPTION

A room thermostat lets you control the temperature in your home, a comfort you can't live without. With the Velamp digital chronothermostat, you can do so very easily by setting the desired temperature with a range of +5°C to +30°C. You can adjust the temperature at home for each hour of each day (7-day cycle). Operation: The room thermostat works closely with your boiler. You can be sure your home will always be warm thanks to the antifreeze function. The digital display lets you monitor all the thermostat's functions: on/off, boiler on, ECO program in progress, battery level, daily program, time, etc. Easy installation: Velamp offers its expertise to even the most inexperienced users: this thermostat is simple to install, requiring only two wires to plug into the wall. Ideal for regulating the temperature of homes, shops, and offices. Features: The thermostat measures 80x130x30mm. Made of shockproof ABS plastic. The contact rating is 6A (resistive load), 2A (inductive load)/250V. Compatible with most heating systems: electric, gas, diesel, etc. The Velamp digital thermostat manages both heating and cooling: you can obviously connect a boiler but also an air conditioning system.
